Location – will either be a classroom location or will say 'online class'

This number is the room capacity NOT the class size

PLEASE NOTE – Online classes

- If you have an online, pre-recorded lecture, it will not show up in the timetable as it is not scheduled at a specific day and time. Students will be able to see it in Course Planner and Access Adelaide, so they will know it exists; however, it is your responsibility to notify them via MyUni of when and how they will be able to view the online lecture (e.g. before the tutorial or self-paced).
- Online seminars or tutorials that are scheduled at a specific day and time, you will see 'Online class' instead of a classroom location. If you would like to **change the day and time of an online class,** this can often be accommodated provided there are no pathway clashes with other courses. Please contact us via abletimetabling@adelaide.edu.au ASAP.
4. View more than one course

To view multiple courses, hold down **Ctrl** and click on another course title:
